

## Student Vote - Federal Election

Student Vote is partnering with Elections Canada to provide students under the voting age with an opportunity to develop and practice the skills of citizenship. The non-partisan organization equips schools with a special Elections Kit for use throughout the campaign. The kit includes lesson plans, electoral district maps, posters, campaign DVD, ballot boxes, voting screens and ballots. The program culminates in a vote hosted by students themselves where the student body casts a ballot on the real candidates running in the school's riding. The Student Vote results will be displayed to the public following the close of official polls in partnership with CBC and regional daily newspapers across Canada.
