

Johnson enhances Identity Theft coverage with additional Identity Restoration benefits

Identity theft has become one of the fastest growing crimes in Canada and the United States and continues to claim millions of victims across North America each year.

At Johnson, we are committed to providing our customers with industry-leading products and services and are pleased to announce an enhancement to our existing Identity Theft coverage. Personal Identity Theft and Restoration is now available to PS-Home Plus 'Gold' and PS-Home Plus 'Platinum' customers.

"In addition to having the necessary coverage in place in the event of an identity theft, it is important that we know how to protect ourselves," said Ken Bennett, President of Johnson Inc. "ID Restore™ not only provides restoration services for victims, but access to prevention information and other valuable resources."

The existing Identity Theft benefit offers \$30,000 in coverage for identity theft victims. It assists with the costs associated with loan and/or credit card refile and long distance telephone calls. The Identity Theft benefit also pays for any lost wages due to missed work hours as a result of the situation and for any legal defence fees that may be incurred.

In addition to these important benefits, the new Personal Identity Theft and Restoration benefit includes:

- Access to a wealth of practical prevention information, and links to useful resources and checklists;
- Guidance, information, and statistical data available at www.identassist.com/idra;
- Personalized step-by-step support for victims in the process of restoring their identity, whether independently, guided, or with a limited power of attorney (administered by certified fraud experts and overseen by staff lawyers); and,
- Referrals to mental health professionals.
