

Spring Break – Dependants – Travel Insurance

As we make our way through the cold Canadian winter, many of our children are getting ready for their annual Spring Break adventure.

In between studying and daydreaming about their destination, many forget one important purchase – Emergency Travel Insurance. According to the Conference Board of Canada*, only 42 percent of Canadian travellers aged 18 to 24 purchase out-of-country travel insurance, a far smaller percentage than older age groups.

Spring Break is an escape from harsh winter conditions and gruelling school workloads. The primary focus is fun in the sun. However, that fun can quickly evaporate if an emergency situation occurs and those Spring Break travellers do not have adequate insurance.

With the right insurance coverage in place prior to departure, the amount of worry and financial impact can be minimized. For mere dollars a day, a financial travesty may be averted.

MEDOC® offers fast, easy enrolment, comprehensive medical and trip cancellation/interruption coverage, 24 hour claims assistance service and direct claims payment, where possible.

As a parent, you can purchase a family MEDOC® plan that covers eligible dependants even if they are not travelling with you. Dependants are considered those under the age of 21 or between 21-25 and attending a college or university.

MEDOC® offers peace of mind and worry-free travel. Call today for a no obligation quote.

Here's to a safe, fun filled Spring Break!
